Dear colleagues,

Summer has come and almost gone and I hope most of you have managed to enjoy well-earned holidays :-)
People like us, I mean people working as independents in the caring field, tend to forget to take care of themselves. By becoming a member of IASK, you've shown you got your priorities right and you know that meeting, exchanging and sharing with like-minded professionals is very nourishing by and of itself.

You could also choose to come to Lisbon for a w.e. in January and attend the **AGM (January 17th)**. We are sure you will enjoy the break ... and Lisbon and the Portuguese are so lovely :-)

We are preparing our next **Meeting of Associations and AGM**, which will be held in beautiful Lisbon (Portugal). We shall meet at a very nice venue: Hotel VIP Eden, enjoying special low season prices. It is located in the center of Lisbon, very close to all the main attractions and surrounded by lovely and cheap little restaurants (www.edenaparthotelvip.com). Quoting Alexis Costello in the article mentioned below: "I met so many wonderful people at this meeting and at the Conference that followed and I am looking forward to seeing some of them again in January in Lisbon. We hope you can join us there!"

Alexis, Canadian member of our board, has written about her experience in Copenhagen:

IASK Meeting of Associations - by Alexis Costello

"I had always thought that my first trip to Europe would be something romantic; a trip with my husband through the canals of Venice, the view from the Eiffel Tower and all those other touristy clichés. Instead, it took me to Denmark to meet my peers at IASK's first Meeting of Professional Associations of Specialized Kinesiology and I'm so glad that it did!

On April 30, 2013 representatives from fifteen different associations gathered in order to connect, see what challenges SK practitioners from other countries were experiencing and compare notes for how we can all move forward to keep this International Association alive and well... Below a photo taken at the **IASK Conference in Copenhagen** during Adam Lehman's presentation. Charles Krebs remarks on the high survival value of the head flip when injured.

If you want to share some of your experience with IASK, please send us your paper and we shall publish it on our website. You will find the [draft Copenhagen AGM Minutes here](#).

Please find the [2015 AGM Agenda here](#). We look forward to seeing many of you there. We will give you more details soon via our website :-)

Warm regards from the Board of IASK :-)
